

# SAFETY NOTICE

For the safety & security of our customers the platforms at this station will have barriers in place between **15:35 & 16:00 (Mon to Fri)**. During this period there will be no access to either platforms.

This is due to the increasing number of students travelling by train following the end of the school day, the narrow platforms & the number of non stop trains passing through the station during this timespan.

Whilst on the station premises & for your safety we would ask students to comply with the following Golden Rules:

- Remain behind the yellow line facing the railway track whilst trains pass through and as stopping trains approach**
- Remove earphones to ensure you are able to hear the safety announcements**
- If using mobile phones please listen for safety announcements**
- Do not run, sit or crouch on the platforms and allow others to safely move along the platform at all times.**

Thank you for assisting us to ensure your continued safety whilst at our station.
