

Hi, my name's Nicole and i'm in 7E. I take the bus to school everyday and I am studying Spanish and French for languages. When I first joined the school I was really worried about making friends and if that is something you too worry about I can promise now that making <sup>friends</sup> is so much easier than you think and you will find them. The thing I was most excited about was going to Ebbingham, France, I would really recommend going as it's a <sup>new</sup> fun experience, you do loads of fun things and you might even learn some French too! The thing I liked most about Ebbingham was going to the chocolate factory and the aquarium. My favourite subject in year 7 has been Drama because you do something new every lesson and there are many fun activities you can join in with. My top tips are: your friend groups will change constantly so always be open to making new friends and don't worry about your old ones. Lastly enjoy your lessons because you will have to do them anyway so just make the most out of them.

Hi my name is Constance, and I'm in 7E. I take my car to school every day and I'm from France and Vietnam. I study French and Spanish for my languages and my favourite subject is wood tech because you get to create new things.

When I first joined school I was worried about making friends, but it turned out it was really simple. I am currently doing one club / lambda and I recommend it to people who are really into drama.

My three top tips are try your best and try to get ~~at~~ <sup>to</sup> class on time but most importantly just be yourself.

Dear Year 7,

My name is Tito, I'm in 7M. I'm currently learning German + Spanish. When I first joined AES, I was worried about getting lost when in and out of school, and not being able to deal with the homework, but now I've gotten used to where everything is. The homework also isn't too much, and the tasks can actually be really fun (sometimes). I was most excited about having new friends, especially because the school is so much bigger. My favourite subject has definitely been art, because the lessons are always really nice, and you get to do so many fun projects.

I joined the Art Club and the Basketball Club, which are both good clubs, and I've also made new friends there, and improved both skills. I'd recommend any of the sport clubs at lunchtime, as it gives you something to do when lunch gets boring. We just came back from Ebbingham, and it's something to really look forward to. My favourite activities were the planetarium, the disco, and visiting Belgium. You get to share a room with all of your friends, and it's a nice break from school. Enjoy Year 7, and look forward to everything.

FROM TITO

Hello, my name is Isabella from 7M. On my induction days, I felt worried about starting a new school but after a while, I got used to the school and had a great time. In year 7, you have tons of things to look forward to like the trip to Ebbingham in France, clubs and many more. You'll be learning Spanish and German this year for languages but you can have a chance to change it in year 8. If you are worried about getting lost, don't worry, you'll get a time table, telling you where your lessons are. I hope you have a great time at Anglo!

Dear new year 7s,

My name is Constantin and I am in 7M. I study Spanish and German and I take the train to school every day. Don't be afraid of getting lost in school. Always work hard and never give up, no matter the subject. I was excited about seeing the my friends that I met on induction day. I recommend football club that is runned on F Fridays. My favourite subject is P.E because I enjoy ~~be~~ playing sports. The best part of E Cheltenham was free time being able to walk around a town with your friends, it was all really fun. I advise you to make as many many friends as possible.

From Constantin,

Good luck.

To the new year 7s

My names Amelie and I'm in 7M and I Study Spanish and German. I was really worried at first of not knowing where your classes are but so many teachers are really helpful and you get the hang of it after a couple of days. My favourite subject is probably pe because I like sports and the teachers are nice. You get taught a variety of sports and football is the most fun coz you get to go do tournaments. Psg is new a its good and you get to skip a lesson. Ebbingham is so worth it and you would regret it if you didn't go, its the best part of the year by far.
