

German Lower Sixth A-Level

Curriculum Intent

The German department seeks to develop ambitious and resilient linguists who strive to gain inter-cultural understanding in the countries where German is spoken. We aim to enable students to communicate effectively in a range of topics and contexts whilst being enthusiastic about the culture and customs of the German-speaking world. We intend to build our students up to be inquisitive and curious about culture, knowledgeable and understanding as they step out to explore, and reflective as they see how they grow and develop through Foreign Language learning.

How will we assess impact?

Our teaching encourages regular learning of key vocabulary and refinement of grammatical structures. Translation skills are honed via 10-point tests. Teachers assess students less formally in class through the four skills of listening, reading, speaking and writing. Students work collaboratively in pairs and groups constantly to improve their speaking skills, providing peer feedback.

Each half term students take an assessment in test conditions. In March of the Lower Sixth year, students take a full-length A-level-style examination, which helps to predict their final grade accurately and to offer them an opportunity to experience the speed and attention to detail required in the examination. Students control the audio themselves for the listening section.

Matriculation requirements

To be able to access the A-Level German course, students should have gained a grade 6 in GCSE German, or the same level in an equivalent qualification.

International Opportunities

Visits Programmes

In the Summer term of the Lower Sixth, all pupils must complete a work experience placement. We offer all students of German the opportunity to undertake a two-week work placement in Frankfurt. Previous work placements have included primary schools, shops and restaurants. Pupils stay with a family to give them the optimal opportunity to improve their language skills and better to understand the culture.

Since this is an exchange programme, each student's partner also stays here for two weeks, whilst completing their own work placement. This gives students the opportunity to make international connections that last beyond their time at school and throughout their lives.

Within the curriculum

The German A-Level curriculum is designed to deepen understanding and appreciation of German-speaking countries and cultures. Theme 1 focuses on social development in Germany; Theme 2 looks at political and artistic culture in the German-speaking world; Theme 3 focuses on immigration and German multicultural society; and Theme 4 looks at German reunification.

Students are encouraged to research each theme independently to ensure that they can draw on a wide knowledge of the culture and society, and they must complete an Independent Research Project based in the German-speaking world as part of their speaking examination.
