

Anglo European Class of 2025 achieve outstanding results. Congratulations!

August 2025

We are incredibly proud of our class of 2025; they will be a year group we remember for their work ethic, affability and camaraderie; we thoroughly enjoyed teaching them and they have supported each other and worked collaboratively with our amazing teachers to achieve great success. We remember this year group started their secondary education amidst unprecedented disruption during an international pandemic but seeing them today, we all marvel at the discipline and dedication that has endured throughout their educational journey. They truly deserve these fabulous outcomes.

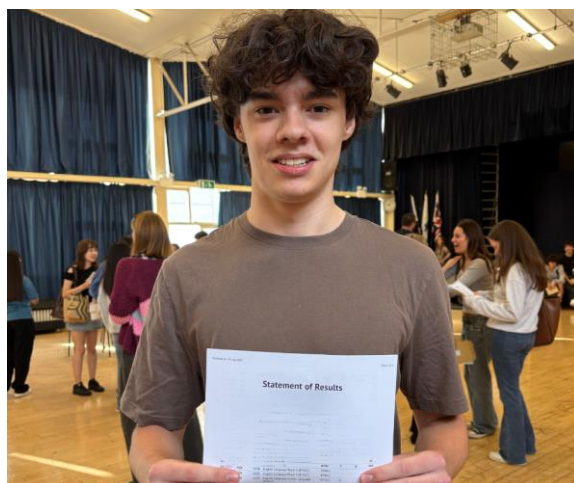

Mrs Gee, Headteacher, said; "These results are a testament to the hard work, hours of revision and great courage and resilience our students have shown throughout. I would like to extend my thanks and huge appreciation to all the staff – teachers and professional support staff, who have enabled such exceptional outcomes. We also shared celebrations today with many delighted parents and we thank them for all their dedication and commitment throughout the years. We know the importance and impact of parental support during the examination years particularly, and it was lovely to share this significant moment in our students' lives with them today. The Anglo Family could not be prouder of Year 11's achievements. Many congratulations!"

We have spent today introducing many students to our outstanding International Sixth Form, ready for September. These students will join students from other schools and around the world to build a unique international community which ensures they are well-prepared for their futures in a competitive, global space.

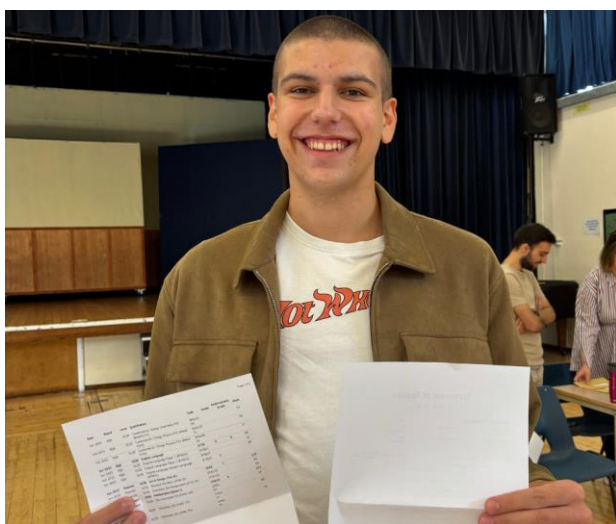

Emilie was absolutely thrilled with her GCSE outcomes; she achieved 6 grade 9s, 3 grade 8s and a grade 7 and will progress to study the IB Diploma at Anglo European School, studying Highers in Biology, Spanish and Psychology and IB Standards in English Literature, Mathematics and Japanese.

Edward

achieved 7 grade 9s and 3 grade 8s, including Spanish and German and will progress to Anglo European Sixth Form to study 4 A Levels.

David has achieved 5 grade 9s, and 3 grade 8s among his clutch of 11 GCSEs and is studying Mathematics, Computing, Biology, Chemistry and IB Standard in Chinese at Anglo European Sixth Form on the AIB route. Joining him will be Alexa, who will study Art, Geography, Psychology and Environmental Systems and Societies IBS.

Students will progress to our Sixth Form via 4 curriculum routes, the International

Baccalaureate Diploma, the AIB route which combines 3 A Levels with an IB Standard or an EPQ, the 4 A level route or the IB Career Programme.

Congratulations to William who will follow the A level route to study Mathematics, Physics, PE and Computing and to Daniel who progresses to the IBCP, studying Economics, Business Studies, Mathematics IBS, History IBS and Introductory Italian.

Mrs Gee, Headteacher
